Personal Profile

After transitioning from a hospitality background, I have successfully re-established myself in the tech industry, focusing on software development. My longstanding passion for technology and development, coupled with my strong attention to detail and problem-solving mindset, have been instrumental in this transition.

As a dedicated and driven individual with a rich diversity of work experiences, I continuously seek to learn and embrace new challenges. I completed a comprehensive software development bootcamp at Just IT Training, where I honed my skills in HTML, CSS, JavaScript, MySQL, and Python.

Currently, I am seeking opportunities that will allow me to further develop and apply my full-stack development skills in a dynamic environment. I am eager to contribute my knowledge and continue growing professionally.
